

Seabourn Odyssey Shines For Guests With Extensive Design, Technological Updates

July 9, 2019

SEATTLE, July 9, 2019 – [Seabourn](#), the world's finest ultra-luxury travel experience, has recently completed a multi-million-dollar renovation of *Seabourn Odyssey*, refreshing the look and feel of the vessel with open and airy interiors, modern technology updates, and rich contemporary furnishings that give the ship a completely fresh feel.

The renovation, completed in Genoa, Italy in May, included extensive work to thoughtfully update many public and guest areas throughout the ship.

"*Seabourn Odyssey* came out of its most extensive refit period to date recently," said Gerald Mosslinger, vice president of Hotel Operations for Seabourn, "and the response of our guests, both repeaters and first-timers, is likely to garner the same impression: the ship is even more stunning and beautiful."

Enhancements become visible as soon as a guest walks into Seabourn Square, the communal hub of any Seabourn ship, with new high-end furniture, lighting and a whimsical carpet design in rich neutral tones.

The play of sophisticated color and relaxed comfort continues in The Club, where patterned carpet with lapis blue lines plays off elegantly toned lounge chairs and refreshed banquettes that convey refinement and spaciousness throughout. In The Restaurant, a mouth-watering selection of the finest cuisine is presented in a rich, yet understated elegance realized in handsome toffee-toned woods, creamy caramel accents, and dramatic sheer curtains while new carpet shows off an intricate pattern that feels equally contemporary and timeless.

In the Card Room, new chairs upholstered in a geometrically-patterned velvet are arranged around new card tables, with dark grey carpet providing a contemporary backdrop.

Guest suites have also seen significant updates, with Veranda Suites now showing new stone tops on the bedside cabinet and credenza, joined by a new table, designer bedding soft goods, and sofa pillows. Premium Suites highlight dramatic updates with new furniture and a new color palate throughout the entire range of top-end accommodations on Seabourn ships that rival the finest hotels in the world.

Entertainment and technology systems also received a number of updates during the refurbishment. New televisions are now installed in all guest suites, integrated with an interactive new high-definition TV system that features added channels such as BBC HD, HGTV, The Food Network, and The Travel Channel. New internet optimization technologies have been installed to help improve overall guest experience across the ship. All suites have USB 2.0 outlets on the nightstand, perfect for charging personal devices with ease. Wireless access points have been added to every guest suite and boosted in public areas, which improves overall access to the internet throughout the ship, while additional updates to the network improves overall service.

Whatever the season, Seabourn represents the pinnacle of ultra-luxury travel with intimate ships offering key elements that set the line apart: spacious, thoughtfully appointed suites, many with verandas and all 100% ocean front; superb dining in a choice of venues; complimentary premium spirits and fine wines available on board at all times; award-winning service and a relaxed, sociable atmosphere that makes guests feel right at home on board. The ships travel the globe to many of the world's most desirable destinations, including marquee cities, UNESCO World Heritage Sites, and lesser-known ports and hideaways.
